

Why I Like My School

Hello everyone,

Today I want to talk about why I like my school, Shetou Junior High.

First, I like Shetou Junior High because it is a happy and friendly place.

At first, I was a little nervous coming from elementary school to junior high. I thought it would be a hard adjustment with older students and more challenging exams. But I couldn't have been more wrong. Every day, when I walk into school, I see smiling faces. The teachers are kind and caring. They always say hello and help us when we need it. My classmates are also nice. We study, play, and share good times together. It feels like we are one big family.

Second, I really love our beautiful campus. There are many trees and flowers that make the school look bright and full of life. The classrooms are clean and comfortable, and the basketball courts are a great place to play during break time. My favorite place is the library. It's quiet and peaceful, with many interesting books. I like to sit there and read during my free time. It helps me learn new things and relax after class.

Third, there are many fun activities at Shetou Junior High. We have sports days, a variety of contests, and school trips. I always enjoy these events because I can have fun with my friends and make great memories.

I also like helping with school events—it makes me proud to be a student here.

Lastly, our school doesn't just teach us lessons from books. It also teaches us how to be good people. We learn to be polite, honest, and respectful.

In conclusion, I like Shetou Junior High because it's a place where I can learn, grow, and be happy every day. I'm proud to be a student at Shetou Junior High.

Thank you.
